

KlearVue™

RICON®

INNOVATION IN MOBILITY™

- Unobstructed view from within the vehicle
- Added safety benefit of minimized blind spots
- Easy access to door handles from the inside
- Accommodates a 51" platform in a 48" door
- Automatic inboard and outboard rollstops
- Stable and compact when stowed
- Permanent, no-lube bearings at all major pivot points
- Limited 5-year warranty

Unseen From The Outside Means A Clear View From The Inside

KlearVue™

KlearVue™ Advantages:

- **The pioneer of the unique “fold-in-half” design**

The KlearVue™ lift from Ricon was the first lift to offer the unique “fold-in-half” design. When the KlearVue™ lift is stowed, it provides an unobstructed view for the driver, helping eliminate hazardous blind spots while allowing a clear view for passengers.

- **Easy to operate and maintain**

Standard pendant control or optional radio remote control operation is available. The added convenience of Ricon power door operators provides an extremely convenient and reliable lift package. Further, the KlearVue™ is based on the famous S-Series® technology and includes permanent, no-lube bearings, stainless-steel fittings, and a built-in manual back-up system.

- **Smooth and quiet operation**

KlearVue™’s unique design makes it stable and compact when stowed. This results in dramatically reduced rattle noise when traveling. With the added benefit of Ricon’s patented Sto-Loc™, which secures the lift from accidental deployments, the KlearVue™ is quiet and smooth.

- **Safety features**

The lift is outfitted with both inboard and outboard automatic rollstops. Also, when the KlearVue™ is stowed, its design keeps the rollstop away from passengers inside the vehicle.

- **5-year Limited Warranty***

US Patent Nos. 6,379,102 B1; 6,585,474 B1 / Australian PCT No. 767571 / Other US and International patents pending.

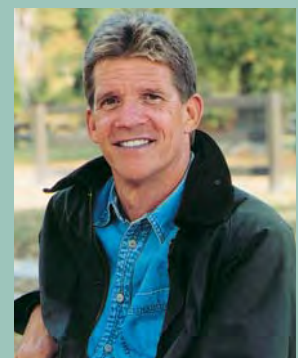

KlearVue Specifications:

Power	Electro-Hydraulic Motor
Pump Rating – 12VDC	65 amp. avg. / cycle, 1250 psi
Pump Rating – 24VDC	32.5 amp. avg. / cycle, 1250 psi
Rated Load Capacity	800 lbs. / 363 kg
Manual Backup - Up	Manual Hand Pump
Manual Backup - Down	Manual Release Valve
Weight	Approx. 310-325 lbs. / 141-147 kg

* One year for parts and labor; five years on hydraulic components.
(Cylinder, Flow Control, Motor, Pump, Hydraulic Hoses and Fittings)

“As I always say, ‘doing your best is a lifetime job’... and Ricon makes that job easier with their commitment to mobility and accessibility for people who use wheelchairs and scooters.”
